

## News Release

For release: 7 June 2017

### **ANZ Research goes from strength to strength**

ANZ Research has been recognised for its high quality insights and analysis, with the team ranking top five in seven categories - its strongest ever performance - in the *KangaNews* Fixed-Income Research Poll 2017.

Now in its seventh year, this is the only independent, specialist poll surveying institutional investors on the research offering in the Australian market.

ANZ Chief Economist Richard Yetsenga said: "This is the strongest ever showing for ANZ Research; the number one ranking for our Asian coverage for the second consecutive year and the number two ranking for our global coverage are definite highlights.

"Our depth of expertise, thought leadership and ability to focus on what matters most to our clients has made a difference. There are some areas we continue to refine, and we look forward to further improvement next year," Mr Yetsenga said.

ANZ has Institutional presence across 34 markets and was most recently named #1 Institutional Bank in Australia, according to the 2017 Peter Lee Associates Large Corporate and Institutional Relationship Banking Survey.
